# Inkursive Scribe Pen with Fude Nib

Dear Customer,

Thank you for purchasing an Inkursive pen, I hope it gives you many years of valuable use.

In case of any issues, please contact me first as I may be able to rectify the problem.

## Features:

- Fude nib for Chinese Calligraphy, Kanji and Art
- Transparent clear body
- Seal on cap
- Secure Clip
- Converter included

## Use

The Fude (pronounced 'food - eh') nib - also called a 'bent nib' - is designed to replace a traditional ink brush for Chinese and Japanese writing. They have also been used for western calligraphy and art.

The width of the stroke is controlled by varying the angle you hold the pen. Hold the pen at a shallow angle for the widest line.

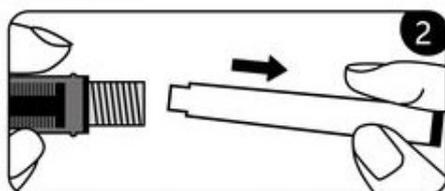

You can also write with the nib upside-down for a thinner line.

## Filling

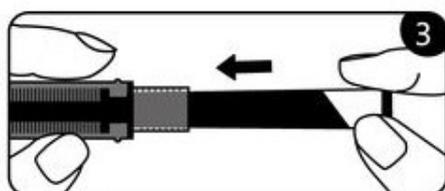

### Replacing a cartridge

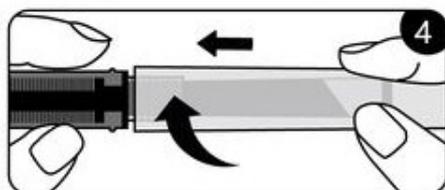

Unscrew the barrel

Remove the empty cartridge

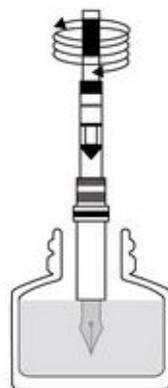

Insert the cartridge. Push until it clicks

Screw the barrel back on

### Filling the converter

Insert the nib  
into the ink.

Twist the  
converter  
knob till the  
converter is  
full

Use only fountain pen ink. India ink may contain particles that can clog the nib. If using nano-pigment inks such as De Atramentis Document inks, Rohrer and Klingner SketchInk, or Platinum Carbon Black, please take care the pen is not left uncapped so it dries out and clogs the nib.

The warranty does not cover the pen if a pigment ink is allowed to dry out in it.

This pen takes Lamy, Monteverde or Parker ink cartridges, not standard international cartridges. Use only fountain pen ink. India ink may contain particles that can clog the nib.

Please note the coloured ring seal is not attached, and is easy to lose.

If you have any issues or comments, please contact me on the email above or via the site where you purchased the pen.

Please leave feedback for the pen wherever you bought it, whether your experience was good or bad, as this helps other buyers as well as myself.

Again thank you for your purchase, and I hope you enjoy your new pen,

Tom Kelsey
